Message From the President

We are pleased to announce that the Fort Worth Fly Fishers Annual Fundraiser Auction will return on Sept. 18 at Wild Acre Brewing in Fort Worth. This annual event is the primary revenue source for the club and allows us to sponsor speakers at our monthly meetings, host outings, provide educational opportunities and supplies, as well as meet our operational commitments. Since we have not held this event since April 2019, the success of this year's event is critical.

As we prepare for the 2021 auction, we are seeking volunteers willing to spend a few minutes on the phone soliciting sponsors for donations. To make the job easier, we are able to provide a list of potential contributors, phone numbers, and a written script to follow in the solicitation. If we could get a handful of volunteers willing to spend approximately one hour making calls to 10 vendors, we will be able to make some great progress quickly. Of course, this activity qualifies for VIP hours for those participating in the VIP program.

If you are interested in lending a hand or have additional questions regarding this request, please reach out to me at president@fortworthflyfishers.org or Rick Haness at rohdevelopment@aol.com. We will be happy to provide any assistance we can or answer any questions you may have.

We are also seeking new or used fishing and non-fishing, items of value that members, friends, or family may be willing to donate to the auction. These can include new or used accessories, books, artwork and other items. Many of these items can be used in our "can raffle" which has traditionally been a great success. If you have items you are willing to donate, please contact me at president@fortworthflyfishers.org or Rick Haness at rohdevelopment@aol.com and we will be happy to coordinate pickup or delivery.

Thank you for your consideration.

Stay well,
David Hooper, President
Fort Worth Fly Fishers

June Speaker: Odom Wu of San Antonio Tackles Carp

Texas Hill Country fly fisherman Odom Wu caught his first fish, a carp, at the age of 13 when living in Tennessee. Since moving to Texas, he has fallen in love with the Hill Country and quickly adopted fly fishing as one of his passionate hobbies. Odom brings his experiences to Fort Worth Fly Fishers on June 1 via Zoom.

Odom is an avid fly fisherman and fly tyer. He enjoys fly fishing for all species of fish -- carp, bass, trout, cichlids and saltwater species. His passion is sight casting for carp from his kayak or standup-board and Euro-nymphing for trout.

His other passion includes photography, where he incorporates the love of fly fishing into his art. When you don't see him on the rivers, Odom spends time with his wife, two children and their two dogs in San Antonio. You can view some of his catches and photography on Instagram under [@odomonthefly](#).

Watch your inbox as June 1 approaches for an email from FWFF President David Hooper with the link to Odom's presentation. If you miss yours, check our website for the link in the post about Odom.

Coastal Fly Fishing Quick Clinic Set for June 2 in Fort Worth Park

What: FWFF Saltwater Quick Clinic

Where: Monticello Park, Fort Worth

When: June 2 at 6 p.m.

Stephen Woodcock and Brett Delk, both of the Orvis Fort Worth, will put on a free Coastal Fly Fishing 101 Quick Clinic on June 2 at Monticello Park in west Fort Worth (see map). All club

members are welcome to attend.

Photo courtesy The Orvis Co.

Bring good stout gear, preferably at least a 7-weight or 8-weight rod, reel and line. Wear clothing that would be appropriate for saltwater wading and fishing, which might include sun protection items like sunglasses, hat, gloves and buffs. And water, bring some water!

Stephen and Brett will introduce participants to saltwater wading and fishing tactics in sun, wind and waves, along with casting instructions for those conditions. They will also cover double-haul casting techniques, valuable for adding distance with large flies and windy conditions.

Last Chance to Join the Texas Coast Outing

June 17-20 in Port O'Connor

At press time there were two spots remaining for the popular Texas Coast outing, this time to Port O'Connor. Check the website to see if openings remain and sign up online if you want to go.

Port O'Connor is a small fishing town but it provides great access to some good spots for wading and kayak fishing. The subdivision, where Paul's condos are located, has access to many spots that are within a short paddle. Jetty and pier fishing are also available. We will have a couple of boats that can also be used to take folks to wade spots or that can shuttle a limited number of kayaks.

Fishing is primarily for speckled trout and redfish. This is not your mountain type of fly fishing as you are typically using 7-9 wt. rods, targeting fish, and stripping the fly past their nose. (The club has some 8-weight rigs that you can check out.) It can be very exciting when you tie on to these big fish.

We will be staying in four condos that will sleep 19 people comfortably. Dr. Paul Bonner, a member of FWFF, owns one of the condos. The lodging cost of the trip is \$200 total (\$66.67/night per person). The condos have full kitchens with cooking and eating utensils. People generally bring their own food or set up sharing menus with others. The club will host a shrimp boil Saturday night. The condos also have boat slips.

If you are thinking about going, **WE NEED TO KNOW ASAP** Please contact the outing host Bryce Bezent or co-host Brett Morehead if you plan to go (see contact info below).

Here are the details:

When: June 17- 20 (Yes, the 20th is Father's Day, but you can get back home in time. What a great Father's Day gift!)

Where: Port O'Connor, Pirates Cove Units 2,10 and 11 – 462, 446 and 444 15th St. Port O'Connor, Texas. Port O'Connor Rentals (361-983-4371).

What: Saltwater fishing via boat, kayak or wading. There is also the jetty at Port O'Connor and surf fishing not too far away. Appropriate gear is 7-weight to 9-weight rod and reel, with flies mostly streamers such as baitfish, crab and shrimp patterns.

Cost: \$200/per person for all three nights, due at time of sign-up. Fee refundable until May 17; after this date up to 50% due to special circumstances approved by the Board. We need to know approximate numbers as soon as possible so please let us know if you are at all interested. Send checks to FWFF P.O. Box 1133, Fort Worth Texas 76101 or pay on line at fortworthflyfishers.org. (Sign in on the website and click on the Calendar icon. You'll

find the outing on the May 18-20 dates. Click on the event and register.) Please let us know by email that you are going and you have sent your money.

Who to contact: Outings Director – Chris Patnode (817) 819-5519, ChrisPatnode@benekeith.com; Host Bryce Bezent (817) 360-6672 rbbezant@gmail.com; or Co-Host Brett Morehead -(817) 368-3808 brett.j.morehead@gmail.com

Guide/FWF4 Donor: Capt. Jeff Johnson's Guide Service, (361) 420-3262, preyingmantis5@gmail.com

Local Guides Recommended by Paul Bonner:

- Capt. KT Townsend -(832) 477-3810
- Capt. Tom Horbey -(361) 983-2263 saltlures@aol.com - fly fishing guide
- Capt. Ed Stracos -(361) 935-9901 - Conventional Fishing -
- Capt. Thomas William -(970) 708-7240 redfishfly187@gmail.com - fly fishing guide

More information on fishing guides and fishing spots and access logistics will be provided to outing attendees via email.

Release and Waiver of Liability Relating to Coronavirus/COVID-19

The novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization. **COVID-19 is extremely contagious** and is believed to spread mainly from person-to-person contact. As a result, federal, state, and local governments and federal and state health agencies recommend social distancing and have, in many locations, prohibited the congregation of groups of people.

Fort Worth Fly Fishers, Inc. (“FWFFI”) has put in place preventative measures to reduce the spread of COVID-19; however, the Club **cannot guarantee** that you will not become infected with COVID-19. Further, **attending FWFFI outings could increase** your risk of contracting COVID-19.

By signing this agreement, I agree to comply with preventative measures to reduce the spread of COVID-19. I further acknowledge the contagious nature of COVID-19 and voluntarily assume the risk that I may be exposed to or infected by COVID-19 by attending a FWFFI outing and that such exposure or infection may result in personal injury, illness, permanent disability, and death. I understand that the risk of becoming exposed to or infected by COVID-19 at a FWFFI outing may result from the actions, omissions, or negligence of myself and others, including, but not limited to, FWFFI members, volunteers, agents, contractors, and outing participants.

I voluntarily agree to assume all of the foregoing risks and accept sole responsibility for any injury to myself (including, but not limited to, personal injury, disability, and death), illness, damage, loss, claim, liability, or expense, of any kind, that I may experience or incur in connection with my attendance or participation in an FWFFI outing (“Claims”). On my behalf, and on behalf of anyone claiming by or through me, I hereby release, covenant not to sue, discharge, and hold harmless FWFFI, its members, agents, volunteers, contractors, and representatives, of and from the Claims, including all liabilities, demands, actions, damages, costs or expenses of any kind arising out of or relating to COVID-19. I understand and agree that this release includes any Claims based on the actions, omissions, or negligence of FWFFI, its members, agents, contractors, volunteers, and representatives, whether a COVID-19 infection occurs before, during, or after participation in a FWFFI outing.

FORT WORTH FLY FISHERS

KAYAK/PONTOON RAFFLE 2021

***3 Chances to Win**

CONTACT BILL HODGES FOR TICKETS: bcolhodes@aol.com

1ST PRIZE

JACKSON "MAYFLY" 2019

Color: Color to Be Determined

The 2021 Mayfly is a fly fishing oriented sit-on-top, loaded with features to make kayak fly fishing more fun and user friendly. The MayFly has a versatile hull optimized for tracking, stability, and speed in popular fly fishing conditions and destinations, including tropical flats, slow-moving rivers, lakes and ponds. Recognizing the unique challenges faced by fly fisherman, particularly fly line management, the MayFly includes a myriad of design aspects to address the needs of fly fisherman creating the ultimate kayak fly fishing platform. Snag-free footrests and features, protected fly box storage, unique fly rod storage options, rod butt props for dealing with tangles, integrated and protected fly patches, and more cater to the high-performance features expert fly fisherman need while being versatile and stable enough to bring new anglers to the sport.

- NEW Elite Seating System
- Snag free wide open standing area
- Snag free one-piece foot brace system with line anchor to secure fly line while paddling
- Large stern well designed for JKooler or Orion 25 Cooler
- Snag free bungee flip down fly box holders lined with foam
- Storage for fly gear like nippers, forceps and tippet
- Bow hatch storage bin for fly vests, hip packs, or others items for easy access when wade fishing
- Hi-Lo, trimmable seating
- Aluminum accessory tracks
- Raymarine transducer scupper
- Standing pad
- Specialized fly rod storage with molded in reel pockets
- Rod butt props to help with line tangles

It's All About the Fishing

This is where we feature photos and stories from members. If you have a fish tale to tell, email it to newsletter editor Jim Fuquay at jimfuquay@gmail.com.

A different treatment is offered this issue, courtesy of The Mexia News, which covered the dedication of a memorial plaque to late FWFF member James Parker during FWFF's annual outing at Bill Ward's Ranch. FWFF member Bill Hodges was instrumental in notifying the newspaper of the dedication and preparing material on the plaque.

Coolidge rancher Bill Ward unveils the newly installed bronze plaque dedicated to the late James Parker, formerly a member of the Fort Worth Fly Fishers Club. Parker passed away in January from complications of COVID, so Ward hosted a fishing tournament in his memory the weekend of April 24. *Contributed photos*

Betty Parker, seated at center, admires a collage of photos of her late husband, James Parker, presented to her at a memorial fishing tournament on the weekend of April 24, held at the ranch of Bill Ward, standing at left.

Coolidge man holds fishing event to honor late friend

By Roxanne Thompson
roxanne@themexianews.com

When Bill Ward's friend James Parker died of COVID in January, Ward knew he wanted to do something to memorialize Parker's life. Parker and Ward were friends through the Fort Worth Fly Fishers Club, since Ward met them in Junction 12 years ago, when Ward was part of a cooking team serving the group.

Ward heard the Fly Fishers talking about where they

could go fish next and offered his ranch in Coolidge that has four quarry lakes of different sizes on it. The club has met at Ward's ranch once or twice a year since then. Ward has been fishing since he was a youth, and he likes fishing but is not a member of the Fort Worth Club. When the club visits his ranch, he prefers to fulfill his host duties.

Ward does not have to stock the quarries with fish;

See FISH, Page 3

the birds do that, he said, since they eat the fish eggs and deposit in the lakes some of eggs, which later hatch in the water.

For variety, sometimes the club goes to fish at the adjoining ranch of Kent Yelverton.

The members come down for the weekend, some stay in RVs while others pitch tents. Most have brightly colored kayaks, from which they will throw their hooked "flies," or lures. They catch bass, perch and a few crappie, Ward said.

When Parker passed away, club member Bill Hodges asked Ward about doing a memorial, and Ward was happy to work with him on it.

"It was more Bill Hodges' idea," Ward said of the memorial. "James had been a member for 20 years; he was a good friend to everybody. New people would come and he'd help them do things. He was just a good guy, a good friend. He and I got to be good friends. We'd been

friends for 10 to 12 years. He liked to fly model airplanes and drones. He would bring them and put on a little exposition for us."

They had a bronze plaque made to commemorate their friend and installed it on a metal post near the lake at Ward's ranch where the club usually fishes.

The plaque reads like this:

"This plaque is dedicated to the memory of James Parker, who fished happily on this and all quarries belonging to his friends, Bill Ward and Kent Yelverton. His friendship will be remembered forever. May he rest in peace. April 24, 2021."

Seven members of the Parker family attended the memorial, including his widow, Betty Parker, to see the unveiling of the plaque. The club also presented Betty Parker with a collage of photos of James Parker by Club photographer Mark Kolanowski.

"He (Parker) delighted in fishing these lakes and always caught more bass and sunfish than anyone," Hodges said.

2021 Lake Athens Fly Fishing Festival

7th Annual LAFF 2021

June 11th and 12th

at Lake Athens Marina/RV center

Join us for the 7th Annual Lake Athens Fly Fishing Festival - benefitting Healing Waters and Casting for Recovery. Learn more and Get Registered at Johnnyonthefly.com

*Two Fly Fishing Challenges * casting contest * casting instructions * fly tying demos * fly fishing instructions * food * fun * and friends.*

Event Schedule:

Friday June 11th

3pm: Check in opens for Sunfish Challenge

5-7pm: Sunfish Challenge

7:15pm: Food, drinks, and entertainment

Saturday June 12th

5:30am: Check in opens for Big Bass Challenge

7am-1pm: Big Bass Challenge (Benefiting Project Healing Waters)

Casting and fly tying available throughout the day

2pm: Lunch

3pm: Casting Contest

4pm: Awards Presentation

Thank you to all of Sponsors for helping make this year's event possible!

Fly of the Month: Guide to Basic Dubbing Materials

The term “dubbing” describes fly tying materials used to make artificial flies, which means thoroughly mixed blends of natural fur and hair, and synthetic materials in all kinds of colors and structures. Natural dubbings are most often used for bodies of artificial flies. With synthetic or brightly colored dubbings we can tie the highlighting elements of the flies that act as a trigger for fish. Of course, dubbings can be combined and blended to achieve original blends, and thanks to these dubbings, we can tie very effective artificial fly patterns for all possible fly fishing disciplines.

Natural Dubbings

Hare is characterized as medium-coarse, which makes this tying material great for bodies of river and still water [nymphs](#), [wet flies](#) and [dry flies](#). The color of this

natural and widely-available material is not clear and specific as other dubbing mixtures, but it is precisely why this tying material is interesting for fly tiers. The rough and dark fibers reliably imitate the legs and other parts of imitated insects. Dubbing from the hare is obtained mainly from his body fur, which is not as harsh as we are used to in a mixture of the “[Hare Mask](#)” type or the very well known “[Hare’s Ear](#).” Therefore, it is well applied on the tying thread and is a universal dubbing for all kinds of flies.

Rabbit is one of the finest materials, its undisputed advantage. Another plus is good availability, so it’s a very cheap dubbing material. Thanks to its easy dyeability, it comes in a wide variety of color shades. To increase the efficiency of flies from this material it is advisable to add a small amount of coarse or synthetic glossy material, such as [Spectra Dubbing](#), [Microflash Dubbing](#), [Metallic Dubbing](#) or [Gleamy Dubbing](#). The fine structure and good water absorption make it an excellent dubbing for nymphs, wet flies and small and medium-sized [trout streamers](#).

Muskrat is a unique, superfine dubbing material that makes it possible to make heavy leaded nymphs extremely thin. It’s suited for [nymphs](#) designed for shy and spooky fish or careful trout. Thin types of flies are great for extremely clear water, where each fly must act as naturally as

possible. Muskrat is an aquatic animal, and fur from aquatic animals are more natural in water.

Possum is a medium-coarse type material particularly suited for bodies of nymphs and [wet flies](#). It can also be used as an alternative to [seal fur](#) for finer chironomids and buzzer flies, which are useful when fishing still water. This material is fly tier friendly on the thread, because it is not so tough and unattractive as the already mentioned seal fur dubbing. The American Opossum mixture consists of fine undercoat fur fibers and coarser fibers. Flies with bodies from this type of material will have the correct and natural shape. It is an indispensable dubbing material that is very natural and attractive for fish in water.

Seal has a gloss and translucence of coarse seal fur produces brightness in flies. Without seal dubbing, we can hardly imagine patterns of [still water flies](#), such as Chironomids, Buzzers, various types of natural [nymphs](#), wet flies such as [Bibio](#), [Zulu](#), or dry flies like [Hoppers](#) and [Emergers](#). Seal fur can be mixed with other natural or synthetic materials, giving it a very attractive effect. It is more difficult to work because it does not hold tightly on thread.

American Squirrel is an excellent mixture of coarser undercoat and tougher fur fibers, which creates a unique structure that is great for [river nymphs](#), [wet flies](#), but also still water chironomids, [emergers](#), and [sub-surface fly patterns](#) which are superb for residential rainbow and brown trout.

Deer Hair is very special because of its coarseness and flotation when used with the loop. It’s best suited for making a credible body of [Peeping Caddis](#) patterns, bodies of larger dry flies and [Goddard Sedge](#) style caddis, or for the head of a [Muddler Minnow](#) streamer. Dry flies tied with it are unsinkable.

Fly of the Month: *Contd.*

Alpaca fur varies between two and three centimeters long, has a circular cross-section, is not transparent and does not reflect light. It's easy to work with. Mix it with a little CDC floatant for buoyant flies. Alpaca is used in many nymph, wet and dry fly patterns.

Natural Mixes

Czech Nymph Dubbing is a great, versatile material usable for all types of nymphs and wet flies, although its main use is to tying the original **Czech Nymph** patterns. It comes in many colors and its structure, achieved by using several furs from to coarser, makes it easy to use.

Blend Dubbing is a combination of several fine furs of a main color shade and dense structure. Its glossy fibers influence the effectiveness of flies such as **Czech Nymphs**, modern **wet flies**, pupas or **dry fly caddis** patterns. It's also suitable for tying **trout streamers**.

Synthetic Dubbings

Antron is a versatile material suited for bodies of **mayflies**, pupae, **nymphs**, but also fine, small **trout or perch streamers**. It can be used alone or mixed with other synthetic or natural materials. In the water it works naturally due to its transparency.

Microflash is the finest material for an iridescent shine, good for the smallest and the finest flies. It can be added to dubbings or

used separately as distinctive trigger points in the form of "hearts" and the thorax of all kinds of **nymphs** and **lake lures**, or the colorful butts of **caddis dry flies**.

UV-ICE is another material with high ultraviolet iridescent shine and a brilliant sparkle underwater. Special holographic and UV colors provide flies with extra sparkle even in small amounts. It's ideal for tying dries and nymphs and is a fantastic all around dub. Ice Dub can also be mixed with natural dubbing fibers for added translucence.

Superfine dubbing gives bodies of all types of flies interesting effects when mixed with natural dubbings. It's also permanently waterproofed, made specifically for dry flies. You can create tightly packed bodies that resist soaking up water. Even in tiny BWO or Trico patterns, it creates small bodies with ease.

Jack Gillis, FWFF Tying Director

CLUB ACTIVITIES

2021 OUTINGS CALENDAR			
DATE	LOCATION	SPECIES	HOST
June 17-20, 2021	Texas Coast on the Fly	Speckled trout, redfish, black drum	Bryce Bezant and Brett Morehead
July	South Fork, Colorado	Trout	Russell Husted
August	Way too Hot!!		
Sept. 24-26	Bill Ward Ranch near Mexia, Texas	Bass and panfish	Bill Hodges
Oct. 15-17, 2021	Oktoberfish - Edgewater Resort Complex on the Pedernales River	Bass	Fredericksburg Fly Fishers
Nov. 19-21, 2021	Lower Illinois River near Gore, Oklahoma	Trout, bass, catfish, drum	Chris Patnode

Volunteer Incentive Program Deadline Extended to June 31, 2021

The Volunteer Incentive Program (VIP) is now in its third year of recognizing and rewarding members who give time and experience to help others enjoy our great sport. Unfortunately, there have not been a lot of opportunities to jump in and help in 2020 due to the Covid-19 pandemic. That being the case, we are extending the 2020 program to June 30, 2021. A new VIP session starts July 1, 2021, and will run through 2022.

Here's a quick reminder of how the program works:

- Encourages and rewards volunteerism on behalf of the club and its programs
- Recognizes volunteers who work at club-sponsored events, help on an outing or host an outing
- Tracks volunteer hours by an initialed square on a VIP card
- Awards a minimum of 12 hours for hosting an outing

Here are the 2020 prizes:

- First Place: 600 VIP Bucks for most volunteer hours
- Second Place: 500 VIP Bucks for second-most volunteer hours
- Third Place: 300 VIP Bucks for third-most volunteer hours

- Three prizes of 150 VIP Bucks to qualifying members whose names are drawn at random
- Only one prize per participant. Only the winners can redeem their VIP Bucks for prizes

There are several things that members participating in VIP need to do:

- Turn in cards as you earn hours or once a card is full (12 hours). Give cards to Bryce Bezant or place them in the VIP bucket at meetings. Photos or scans of cards can also be emailed to rbbezant@outlook.com or texted to 817-360-6672.
- All VIP cards MUST have the member's name on the card to get credit.
- Members are responsible for their own cards and getting hours signed off.
- The club is not responsible for lost or stolen VIP cards
- Lost cards cannot be "re-created."

To keep up with the club's volunteer opportunities and events, please visit the website at fortworthflyfishers.org. It is a great program. Please participate!
