

## FORT WORTH FLY FISHERS

### SPECIAL RAFFLE 2022

#### Three Chances to Win

CONTACT RICK HANESS FOR TICKETS: [rohdevelopment@aol.com](mailto:rohdevelopment@aol.com)

#### 1<sup>ST</sup> PRIZE

### WINSTON Air 2, 9'0" 5-wt Rod and ORVIS Mirage IV Reel

The next generation of all-around freshwater fly rods. These rods can do anything – present tiny dry flies to wary trout on flat water, cast a heavy streamer to the far bank in the wind, launch the entire line when you need it, and make quick, accurate close-range shots. The new AIR 2 Freshwater Fly Rod with Boron is a pack rod, a travel rod, a beautiful rod, and an all-around rod. And it's a **Winston**. When you can only bring one rod...the amazing new Boron AIR 2. You won't want to leave home without it. Now is the time.

A technologically superior reel conceived and designed from the ground up and built in New England by American craftsmen to battle angry fish and laugh in the face of corrosive saltwater environments. The Mirage features a sealed and maintenance-free carbon and stainless steel disc drag system with an aggressive knurled drag knob that goes from zero to full drag in a single drag knob rotation. Patent-pending ball and ramp drag mechanism provides a smooth turning drag that follows a non-linear curve as the drag knob is turned to give smoother adjustments in the fishing and fish-fighting range. The reel is a super large arbor for increased retrieve rates and reduction in line coil. Machined in the USA from strong, yet lightweight 6061 T6 aluminum bar stock.

#### 2<sup>nd</sup> PRIZE

### TFO Axiom 2x, 9' 0", 6-wt. Rod and BVK III+ Reel

TFO's patented and exclusive Axiom technology embeds a double-helix of Kevlar within the blank. The superior tensile strength of the Kevlar acts to buttress the rod's carbon fiber matrix in compression. The result is that Axiom series fly rods stabilize faster and smoother, absorb shock better and comfortably tolerate over-loading. The angler benefits because Axiom technology virtually eliminates the ability to overpower the rod when casting. Bottom line – whether you carry more line in the air or push the rod to the limit, you won't feel any mushiness – What you will feel is line ripping out of your hand as it launches.

A fully-sealed drag system with super easy LH/RH retrieve changes and minimal maintenance. The drag system is fully sealed Delrin® and stainless-steel to keep the drag clean and functioning in rough and dirty environments. This new drag system provides a noticeably broader range of resistance. The BVK SD series of reels are machined aluminum and anodized for durability and use in fresh or saltwater. The super large arbor design gives these reels huge line capacity and enables the angler to pick up line with incredible efficiency. The four reel series is perfect for everything from rainbow trout and bass all the way to bonefish and baby tarpon. All models of the BVK SD come packaged in a black nylon reel pouch.

#### 3<sup>rd</sup> PRIZE

### Ute Bluff Lodge, 5 nights stay Southfork, Colorado

Creatively decorated rustic log cabins, comfortable lodge rooms, and fully equipped RV spaces on 17 beautiful acres is what you will find at Ute Bluff Lodge.
